YASHASVI GUPTA

Front-End Web Developer

yashasvigupt@gmail.com | 9258274909 | linkedin.com/in/yashasvigupta03 | github.com/Yashasvi-gupt

SUMMARY

Front-end developer skilled in HTML, CSS, JavaScript, and React, with hands-on experience building responsive, API-integrated web applications. Combines web development with practical SEO and AI/prompt-engineering experience gained through freelance data annotation and digital marketing roles. Quick to adopt new tools and comfortable integrating AI capabilities directly into web products.

SKILLS

- Languages & Frameworks: HTML, CSS, JavaScript, React, Bootstrap
- Tools & Platforms: Git/GitHub, NPM, VS Code, WordPress, MS Word/Excel/PowerPoint
- Web & AI: API Integration, Prompt Engineering, AI Application Integration, SEO Optimization

EXPERIENCE

Digital Marketing & SEO Executive — InspireMe Labs *Mar 2025 – Present*

- Manage and optimize website content to improve organic search visibility and keyword rankings across sites.
- Partner with content and design teams to embed SEO best practices into all digital materials, improving [metric, e.g. organic traffic / ranking position].
- Track SEO trends and algorithm updates to continuously refine strategy and maintain competitive search performance.

Data Annotation Freelancer — DataAnnotation.tech *Dec 2024 – Present (project-based)*

- Design and craft prompts for AI model training, completing 100 + annotation tasks to date.
- Evaluate and rate AI-generated responses against quality guidelines, applying corrections to improve model accuracy.

Data Annotation Freelancer — Outlier.ai *Sep 2025 – Present (project-based)*

- Contributed to data annotation projects supporting the training and evaluation of AI models, maintaining consistent quality and labeling accuracy across [100] + tasks.

PROJECTS

My Layout Library — React

- Built a reusable React component/layout library to accelerate future project development and standardize UI patterns.

AI API Integration Project

- Integrated multiple AI tools into a clean, prompt-engineered back end, replicating core functionality of existing AI products.

Amazon Clone — React

- Developed a responsive 3-page e-commerce app (landing, cart, product pages) with working add-to-cart/remove-from-cart logic and live cart total calculation.

Weather App — JavaScript

- Built a responsive weather forecasting app using a live Weather API, delivering 5-day forecasts with location search and dynamic backgrounds based on real-time conditions.

EDUCATION

12th Standard (ISC) — Modern School, Rishikesh | 2021

Physics, Chemistry, Mathematics

Front-End Web Development Certification — Coursera

HTML, CSS, JavaScript — page structure, styling, and DOM-based interactivity
